

MEDIUM-SIZED CITIES DELIVERING EUROPE'S GREEN TRANSITION

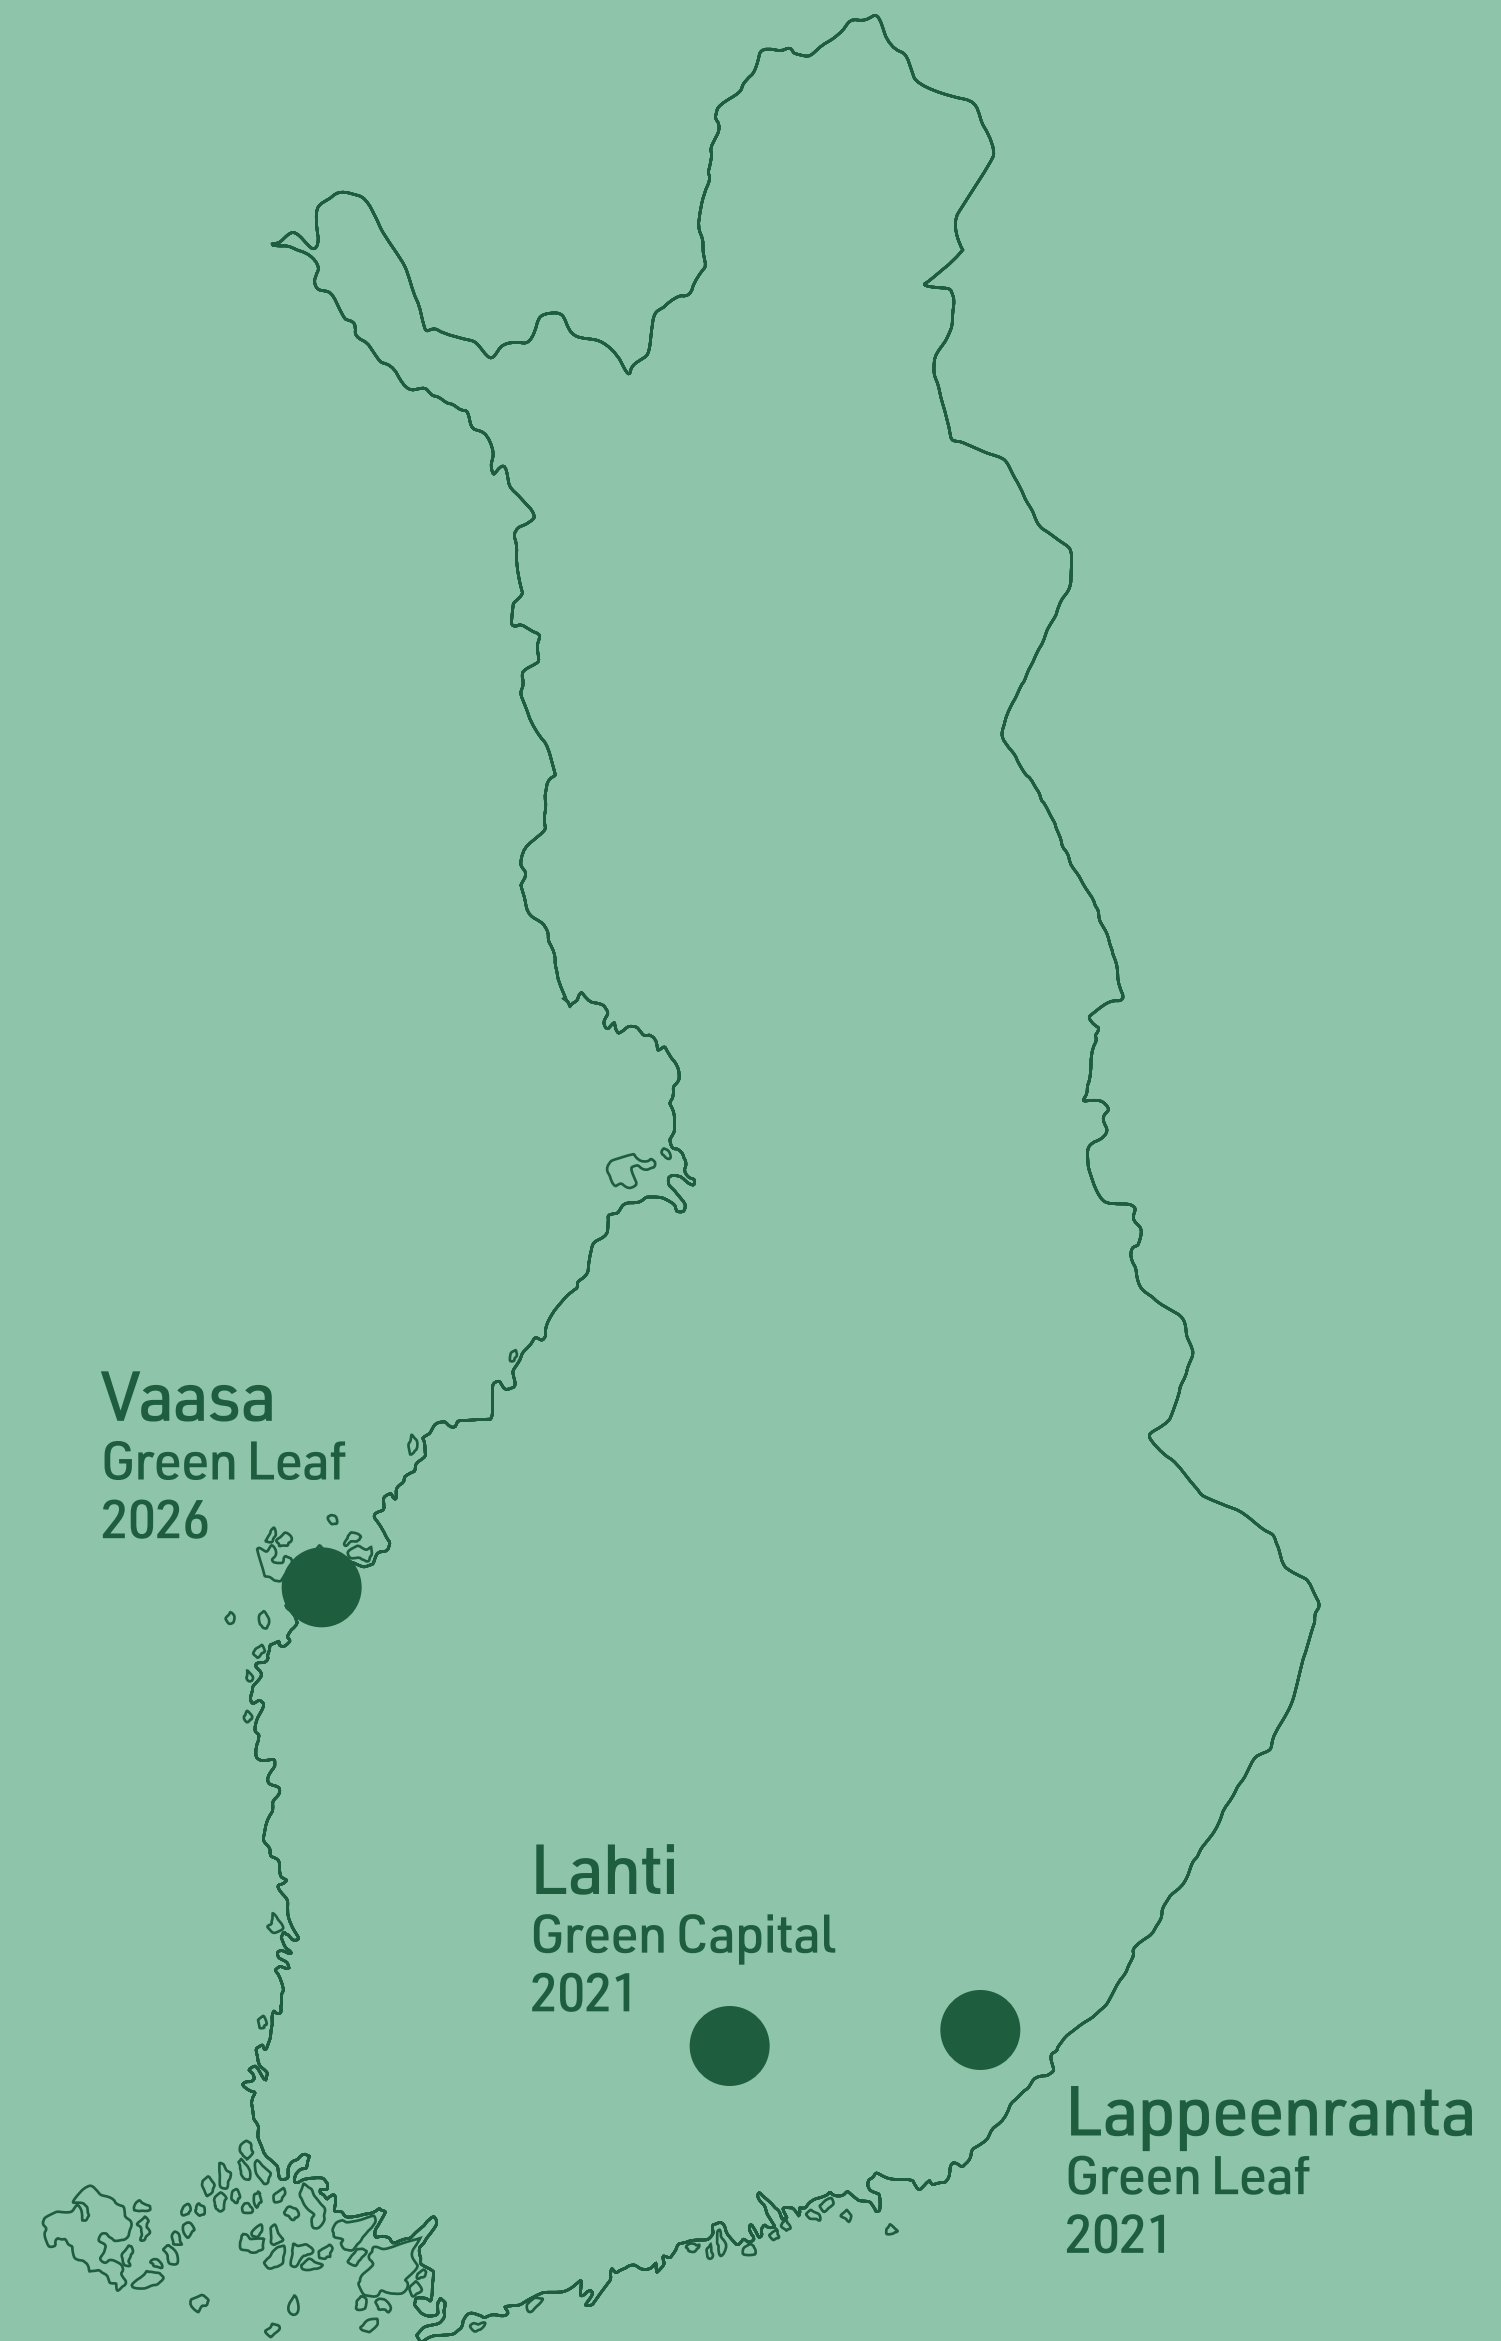

Connect. Exchange ideas. Build European partnerships.

HOW CAN LOCAL CLIMATE LEADERSHIP BECOME EUROPEAN INFLUENCE?

Join Vaasa, Lahti and Lappeenranta,
Finland's European Green Capital and Green Leaf cities,
and partners from Sweden, Denmark and the Netherlands
for an inspiring discussion on local climate leadership
and the green transition.

Together with cities, industry, business clusters and
other stakeholders, we will explore how regional energy
ecosystems and city-led solutions can shape EU priorities,
attract investment and accelerate the green transition.
